PROFILE

Innovative **Software Developer** with expertise in **Dart, React, and Vue**, specializing in building modern, scalable, and user-friendly applications. Experienced in designing responsive UIs, managing application state, and integrating APIs to deliver high-performance digital solutions. Strong problem-solving skills with a solid understanding of software architecture and cross-platform development.

EMPLOYMENT HISTORY

Freelance Software Developer – Web & Cross-Platform Applications, Kochi India
May 2024 — Mar 2026

Designed and developed scalable web and cross-platform applications for multiple clients, ensuring solutions were closely aligned with business requirements and user needs. Leveraged modern frameworks including **Dart (Flutter), React, and Vue** to build high-quality, performant applications that enhanced usability and engagement. Applied strong problem-solving and architectural skills to create efficient, maintainable codebases, delivering reliable software solutions that exceeded client expectations and strengthened their digital products.

EDUCATION

Bachelor of Computer Applications, Kristu Jyoti college of management and technology, Chanaganacherry
Aug 2021 — Apr 2024
Graduated with 69 CGPA

INTERNSHIPS

Tech Team Associate at Gtech Mulearn, Thiruvananthapuram
Jan 2023 — Sept 2023

- Optimized application performance across multiple platforms, resulting in improved load times, responsiveness, and user engagement.
- Utilized modern frontend and cross-platform development techniques to build efficient, scalable, and user-friendly interfaces.

EXTRACURRICULAR ACTIVITIES

Freelance Software Developer at Kerala Government Organizations, Thiruvananthapuram
Jan 2023 — Sept 2023

I have experience collaborating with the Kerala Knowledge Economy Mission (KKEM) and the Kerala Development and Innovation Strategic Council (K-DISC), Kerala Startup Mission (KSUM) participating in over five projects with these organization.
